Parish/Town News Release

Other (over several other investigations) These include assault, harassment, public order and malicious communications incidents to name just a few.

Humber-talking has set our priorities, this month we are to:

1. Anti-Social Behaviour

A small group of individuals have been identified as being involved in pockets of ASB in the Willerby area. There are varying levels of Anti-Social behaviour ranging from general nuisance in shops to damage being caused. We have had some good results from our partnership working with Wolfreton School and the presentations we ran last month. ASB will continue to be on our radar over the coming weeks and months and we will be patrolling in hotspot areas.

2. Nuisance/Stolen Motorcycles – ongoing

Stolen Motorcycles and nuisance logs continue to be on our priority list, and we will maintain a hi viz presence in the areas affected, generally Anlaby Common, Willerby and West Ella as a visible deterrent.

3. Burglaries

Burglaries continue to be high up on our list of priorities and in particular Hanoi style (whereby offenders break into property and steal victim's car keys and car) along with outbuildings such as sheds and garages. Throughout the month of August our patrols will continue high visibility patrolling.

CRIME REDUCTION

Keeping your shed or garage safe and secure!

Many people don't secure their shed or garage in the same way they do their homes - often using an easy-to-break lock or padlock to protect valuable contents such as a car, bike or lawnmower. An opportunistic burglar will try a shed or garage first because they can find the tools they need to break into the main house.

Shed and outbuilding security: first steps

Parish/Town News Release

Think like a thief!

Look at your shed and consider how you would break in. It's worth having a good padlock on the door with no exposed screws. Pay attention to hinges, as these are sometimes easily removable. If you have windows, then these could be vulnerable unless they're secured with wire mesh or grills. And keep it always locked.

Alarm it.

Consider a battery-operated shed alarm. They look low key, but they respond to movement or door contact with an extremely loud siren.

Lock it, hide it or mark it.

Don't give them the opportunity or the tools to commit a crime. Lock everything away securely. Tools can be locked inside a locker or box or secured with a chain.

Secure your bike to the ground or a lockable stand within a locked shed or garage. Visit [Sold Secure](#) to search for ground anchors and other locks designed to fix to floors and walls.

It's always worth draping an old sheet or blanket over the top of mowers or bikes to keep them covered from view.

Although it might sound like stating the obvious, never leave your garage or shed door unlocked if you're not around. Keep the door closed between uses so that no one can see what's inside.

Property mark your items and take photographs of them. Some tools can be painted with your name or postcode and forensic marking is also an option. You can also register any item that has a serial number with [Immobilise](#).

A locksmith belonging to the [Master Locksmiths Association](#) can advise you on the most secure shed and garage door security. They can also help you install it. Most also provide full home security surveys.
